

Frank Mensah

Chicago, IL | (773) 875-4389 | mensahfrank330@gmail.com | <https://famfrank.vercel.app/> | [linkedin.com/in/frankmensah/](https://www.linkedin.com/in/frankmensah/)

Full-Stack Software Engineer with experience in web development, data engineering, and RPA support operations, specializing in automation maintenance, issue resolution, and cross-functional solution delivery using C++, JavaScript, and Python.

Core Competencies

Frontend & Backend Development | Web Development | Prompt Engineering | Database Management | Agile Development | API Integration | Software Development | Product Design | CI/CD | AI Research | AI Integration

EDUCATION

Bachelor of Science in Computer Science | University of Illinois at Chicago

Graduated: May 2024

Coursework: Data Structures, Software Design, Object Oriented Programming, Web App Development, Algorithms, Database Systems

PROFESSIONAL EXPERIENCE

Deloitte

RPA Support Ops – Remote

May 2025 - Present

- Oversaw daily operations of the RPA bot fleet, managing schedules, monitoring performance, and applying code updates to ensure seamless execution and adherence to SLAs.
- Diagnosed and resolved production issues, addressing exceptions and collaborating with IT and business teams to minimize downtime and maintain business continuity.
- Improved automation workflows by identifying inefficiencies, strengthening error handling, and enhancing performance.

Skillsstorm

Associate Salesforce Developer – Remote

Jan 2025 – Mar 2025

- Developed an Experience Cloud site for veterans to manage claims, appeals, and personal information, including disability, healthcare, education, and housing benefits.
- Built a Claims Processing App in Salesforce to automate case assignments, track claim statuses, and enforce eligibility rules, such as auto denying dishonorably discharged applicants.
- Designed custom reports and dashboards to analyze claim types, processing times, and appeal trends for improved decision-making.

RYB Premier LLC

Web Developer – Remote

Oct 2024 - Dec 2024

- Launched RYB Premier LLC's first website, increasing the business online presence and contributing to revenue growth through enhanced accessibility and branding.
- Integrated Calendly for appointment scheduling, EmailJS for client communication, and Stripe for secure payment processing, streamlining operations and improving user experience.
- Designed an engaging website aligned with the company's identity, boosting client accessibility of financial coaching services.

Productive Edge

Software Engineer Intern – Chicago, IL

June 2023 – Aug 2023

- Developed an AI model using OpenAI's ChatGPT and advanced prompt engineering techniques to match candidate resumes with job listings, categorizing candidates to optimize healthcare recruitment.
- Designed and implemented scalable data pipelines using Python and Azure Databricks, integrating web-scraped job postings and optimizing large dataset processing in MongoDB to improve data accuracy and workflow efficiency.
- Collaborated with cross-functional teams and deployed a responsive Next.js web application for healthcare hiring managers to efficiently review candidate-job matches, improving recruitment time and decision making.
- Researched, documented, and integrated various Map APIs for the Map Exploration System to monitor and track opioid sales in U.S. pharmacies, identifying potential hotspots associated with opioid-related issues.

KEY PROJECTS

FamFinance AI Chatbot

July 2024

- Developed an AI-driven customer support chatbot tailored to assist users with investment inquiries, enhancing user experience through real-time, automated responses.
- Implemented context-specific response handling, ensuring the chatbot accurately recognized and responded to finance-related inquiries while clearly communicating its limitations for non-finance topics.
- Integrated Firebase for secure user authentication and data management, ensuring personalized interactions for new and returning users.

Find Your Roof Nonprofit Platform

Feb 2024 - May 2024

- Created a centralized platform to assist homeless individuals in Chicago in accessing shelters, job opportunities, and permanent housing, leveraging Next.js to develop a responsive website.
- Incorporated Rapid and Leaflet APIs to provide an intuitive map visualization of housing and shelter locations.
- Managed tasks in ClickUp and GitHub for smooth Agile development workflow and contributed to Supabase's database architecture.

TECHNICAL SKILLS

- **Languages:** C++, Java, Python, C#, JavaScript, TypeScript, SQL, Apex, SOQL, SOSL
- **Web Development:** REST API, HTML, React, NextJS, NodeJS, Bootstrap, Shadcn UI, Material UI, Tailwind CSS, REST APIs
- **Database Management:** MySQL, MongoDB, Supabase, Firebase
- **Others:** Microsoft Azure, Databricks, Agile, Scrum, Figma, Postman, Git, GitHub, Bitbucket, GCP, Jira, DevOps, BluePrism

CERTIFICATIONS

Salesforce Certified Administrator (February 2025) | **Salesforce Platform App Builder** (February 2025)
